Counterpart, Inc.

Counterpart, Inc. actually began in the hearts and minds of Don Deibert and Jeff Jacobson many months before our doors opened on January 1, 1996. Seeing a market for quality custom metal fabrication for the local industrial areas. Don and Jeff, along with their wives, Sheryl and Lori, began gathering the information they needed to form the corporation.

Counterpart Inc. is a full-scale operation that can handle the smallest components to the largest assemblies that your industry may require. We currently serve 86 companies and will bring on more in the future

As our company continues to grow, We have built a reputation for working effectively with customer specifications and schedules and we continue to work hard to sustain that solid reputation.

Counterpart clients provides manufacturing solutions for our customers. Customers include leaders in display and sound system technologies; window and door manufacturers; cable and harness producers; food service, polyethylene product manufacturers; agribusiness; and fire, rescue, utility, and specialty vehicle industries.

How Counterpart adds value to our customers

- ❖ As compared to other companies that do what we do, our state of the art equipment, facility, relationships and safe working culture is what stands Counterpart above our competition.
- ❖ We have a very strong management and employee team along with processes in place to give our customers the best service.
- ❖ We have gone over 5 years without a lost work time injury.

Precision Sheet Metal Fabrication
